

# Birdies 2 Benefit

August 16, 2021

PGA REACH New England is proud to partner with the Boston Children's Hospital and Special Olympics – Massachusetts will join efforts to collaborate as the beneficiaries of the day's fundraising efforts.

- Birdies 2 Benefit, the signature fundraising initiative by PGA Professionals from across the New England Section, will officially take place on Monday, August 16th at the Andover Country Club in Andover, Mass.
- New England Section PGA Professionals will play 72 holes of golf in one day with the goal of making as many birdies as possible!
- Through each professional's network, solicited donors make a financial pledge per birdie to "support their pro" and help raise funds to benefit three non-profit organizations.
- Birdies 2 Benefit is a one-day fundraising event to support charitable organizations throughout the Section with the goal of impacting lives through the game of golf.
- Each professional will have the ability to customize their Donation Page, sharing the opportunity with family, friends and colleagues to help support their playing efforts with birdie-by-birdie pledges.
