

MESSAGE FROM NEPGA EXECUTIVE DIRECTOR

Happy New Year! This January marks the start of both The PGA of America and the New England Section's 97th year of existence. We are only three years away from celebrating our centennial. There is no better time to be a member of the New England Section. We are led by a very dedicated Board of Directors committed to ensuring the New England Section remains one of the leaders in golf in New England. The Staff is continually working hard to stay current, improve programs and communication, create new programs, run quality events and provide dedicated member services.

We have enjoyed a very active and exciting off season so far. The Board of Directors met in December for a Strategic Planning Session. The Planning Session was to look at the long term vision of the New England PGA. Where do we want the Section to be in 3 – 5 years? How can we improve the Section for our members? What programs do we need to sunset and what new programs should we create? The Board of Directors will meet again in January to review the Planning Session and formulate a strategic plan going forward. Be sure to watch for upcoming communication to the membership from your Officers and Board of Directors.

I encourage each of you to take a look at your own facility and operation and think about a strategic plan of sorts at your facility. Where do you see your position, your operation and your programs in the next 3 – 5 years? Encourage your Board of Directors and owners to have the vision and foresight to look at the future of their facility and where they want it to be. My eyes were opened and I became very excited and energized by the discussions formulated at our Planning Session, and I would expect you may have the same experience as well.

If you are heading to the Merchandise Show at the end of this month, or even if you are staying in New England, there are a significant number of educational opportunities for you to attend. Take advantage of these opportunities and use some of our winter "down time" to better yourself and your facility. If you will be in Orlando or playing in our Winter Pro-Pro at the PGA Village, I look forward to seeing you.

I am very excited to start my third year serving as your Executive Director and I am still humbled to have the opportunity. Look for the New England PGA to continue to grow, in an aggressive yet responsible manner, for the ultimate benefit of PGA golf professionals in this region as well as everyone connected to the game.

Respectfully,

Michael Higgins

EMPLOYMENT NEWS

Preparing for the second half

As you turn the page on the 2012 golf season, hopefully you have had some time to reflect upon the important things in life. The conclusion of the golf season propels our membership into the holiday season, and while you take the time to cherish those things important to you, make sure to not forget about the importance of your employment.

The winter months in New England provide an excellent opportunity to regroup and honestly assess the good, the bad, and the unpleasant decisions we perhaps made in our jobs. And while you may have missed the chance to meet with your direct supervisor to review the 2012 season, now is the time to push forward and aggressively prepare for the second half of the hiring season and set professional goals for 2013.

Over half of the New England Section membership has yet to complete the Membership Survey! The 2013 Membership Survey (the information source for your CareerLinks Profile), has been updated and improved. Make sure you are up to date with your CareerLinks Profile, especially in the areas related to Player Development and GOLF 2.0. During every Facility Relations Committee meeting with employers, conversations undoubtedly turn to “how can a PGA Professional drive revenue at our facility”, and our answer is always with Player Development and customer retention programs. The new Membership Survey captures specific information about success with Player Development, which now allows employers to reach out to candidates through CareerLinks who have a proven track record with growing golfers!

To make sure you receive employment notifications, complete the **2013 PGA CareerLinks Profile Survey**. Completing the survey will update your PGA CareerLinks Profile and ensure your continued participation in CareerLinks. Please note:

Upon completion of the survey you could receive 2 MSR credits (maximum of 5 credits per MSR cycle year for completing PGA surveys).

As you start to prepare for 2013, be **SMART** with your goal planning, setting, and execution.

Specific goals will allow you to break down season long goals. Smaller steps will seem less overwhelming and will be easier to achieve.

Motivate yourself with goals that have meaning to you and your employer. With passion and commitment behind what is needed at your facility, you are more likely to follow through.

Account for each step of the goal setting process. By measuring the beginning, middle, and conclusion of the process you have specific methods of reporting your value to the facility.

Responsible PGA Professionals understand the sport and business of golf is circling back to the foundation of what the game was founded on – teaching & playing. You are best positioned at the club to remind the decision-makers that the better your customer plays, the more fun they have, the more often they will return. Golfers have fun, and play more when they **PLAY BETTER**.

Tracking results will ultimately allow for you to determine whether your goals were successful. In doing so, honestly evaluate your performance finding your areas of strength and weakness. This data, coupled with employer feedback is the information needed to start the Annual Review process for your contributions during the 2013 season.

MESSAGE FROM NEPGA SECRETARY

Happy New Year Everyone! Where did 2012 go??? A year ago, I wrote the following in the January Mixed Bag.

1. Use the **PGA Professional Report** which can be found on PGALinks.com. This is a great tool to provide to your employer.

2. Learn more about Golf 2.0 and what this initiative can do not only to grow the game of golf, but also improve your compensation in regard to new golfers and all the items they need ie lessons, clubs, memberships (down the road), etc.

3. Remember to contribute to the George Wemyss Fund, remember some clubs will match your donation.

In closing, set realistic goals for 2012, everyone loves to succeed, so start small, lose 5lbs then try for more, make the time for 10 minutes of practice every other day, then maybe everyday, start exercising 30 minutes, whatever the activity start small and then build. You will see a higher rate of success and staying with the process.

I learned this from a close friend, be the first one to say Hello whether it is jogging past someone on the roads or checking out in line, or getting on a plane, wherever You are, a smile and a hello goes a long way.

I don't know how many of you may have done any of the above or even read this, but I am trying again and just changing the date to 2013.

We have a great Section, and the best way to get our brand out there and recognized is to do more in our communities. In 2013 try to do something more in your surrounding areas. Teach at your children's school, local senior center, or volunteer at the local animal shelter, it doesn't matter. You never know who you will meet or make connections with in those venues. I know our time is at a premium but again all I ask is for you to try.

Some of you may have received the email from the Folds of Honor about the Fitness Commitment; I have requested further information that I will forward to all of you, it could just be the start to a healthier lifestyle. The better we feel, the better all areas of our lives will be. It would fun to have the New England Section have the most participants.

In closing, I wish all of you a great winter, and as I have always said please feel free to contact me with any ideas, thoughts or concerns at csclubbond@aol.com.

Sincerely,

Susan Bond, PGA
Secretary, New England PGA
